PROFILE

Front-End Developer with a passion for coding ready to join a development team. I attended a 300+ hour coding bootcamp to learn new languages and skills. I value collaboration, positive communication, and active listening.

WORK EXPERIENCE

Office Assistant
Denver Audiology, LLC
May 2019 - August 2019
- Fostered rapport with patients to enhance their clinic experience
- Worked autonomously alongside provider
- Efficiently managed the front desk by answering the phone, scheduling and confirming appointments, and relaying messages to doctor
- Digitized and organized calendar and patient data entries and files from previous years
- Systematized and restructured folders and documents in file cabinets alphabetically and chronologically to fully digitize all patient files
- Provided technical support

PROJECTS

Weather App
Designer, Developer
2023
- Built a SPA (single-page application) to allow users to search for current and forecasted weather data in any city.
- Used the SheCodes weather API to retrieve weather data.
- Used React States to manage changing data.

Dictionary App
Designer, Developer
2023
- Built a SPA to allow users to search for and find the definition of a word, along with some example sentences, synonyms, and photos.
- Used the SheCodes dictionary API and images API to retrieve data.
- Used React States to manage changing data.
